4. Indicate reason for not interviewing all other applicants

► IMPORTANT REMINDERS

- Select the appropriate module – Applicant Tracking
- Select the appropriate role – Applicant Manager and refresh
- Take action and send along workflow/cancel/etc. with orange Take Action Button on the right
- Actions are confirmed with a green bar at the very top of the form
- If something doesn’t work, look for orange exclamation points in the menu or a red error bar at top of the screen
- You may schedule interviews ONLY after receiving an email from Employment Manager that your interview candidates have been approved! It is best practice to select all of your “select for interview” candidates at the same time so that emails are received by Employment Manager at the same time, and Employment Manager will know that you have completed your selections
- Send a copy of your interview schedule to Employment Manager

BEST PRACTICES: REVIEWING APPLICANTS

1. Look at each applicant and make an initial decision (you can always go back to change the status – see Special Instructions 1 at end of this document.) This will save you time! Your choices are:

   - **Take Action On Job Application**
   
   ![Workflow Actions]

   - **Keep working on this Job application**
   - **Under Consideration for Interview** (move to Under Consideration for Interview)
   - **Not Interviewed, Not Selected** (move to Not Interviewed, Not Selected)
   - **Not Interviewed, Not Selected - Meets Minimum** (move to Not Interviewed, Not Selected - Meets Minimum)
   - **Selected for Interview - Meets Minimum Training/Experience** (move to Selected for Interview - Meets Minimum Training/Experience)

   Use “under consideration” if you are not sure and would like to keep them in active applications to review more thoroughly.
   
   Select “Not Interviewed, Not Selected” when you know you do NOT want to interview the applicant. You will need to select a reason why you are not interviewing.
   
   Select “Not Interviewed-Meets Minimum” when the applicant meets your minimum requirements but is NOT in your top candidates. You will need to select a reason why you are not interviewing.
   
   Select “Selected for Interview” when the candidate meets your requirements, and you would like to submit their name to HR for approval.

2. For HR approval purposes, it is best to move all “selected for interview” at the same time so HR will receive an email for all of the candidates at the same time and know you have completed your selection process.

3. When you have moved all applicants to a workflow “state”, only the active applicants “selected for interview” and “under consideration for interview” will remain in the list of applicants. You will not have to go back through all the applicants and can concentrate on only your best candidates.
